**Town Manager's Coronavirus (COVID-19) Update
February 5, 2021**

Watertown has a total of 1,943 confirmed and probable cases of COVID-19 and 1,783 community members have recovered from the virus. Twenty-five Town employees have had confirmed cases. Watertown has recorded thirty COVID-19 fatalities. Our thoughts go out to the families as they mourn the loss of their loved one.

Watertown COVID-19 Case age Distribution¹

19 and Under	20-29	30-39	40-49	50-59	60-69	70 and over	Unknown/no age recorded	Total
212	355	369	260	256	231	259	1	1,943

Watertown is currently considered "yellow" or "moderate risk" for COVID-19 transmission.

The Watertown Health Department announces its first COVID Vaccine Clinic for Watertown Seniors age 75 and older.

The Watertown Health Department has received a limited supply of COVID-19 vaccines and per state requirements is hosting a clinic for **Watertown residents age 75 and older only (anyone born prior to 1945).**

The Watertown Seniors Over 75 Clinic is scheduled for Wednesday, February 10. To register and for more information, go to: https://www.maimmunizations.org/clinic/private_registration/46e75165-f79b-4a45-aff3-8114d48036ac

Pre-registration is required for all appointments and **seniors requiring assistance** with registering **can call the Senior Center at (617) 972-6490** for assistance in making an appointment. The Clinic will be held in the Community Room at the Watertown Police Station, 552 Main Street.

Residents who have other means to get the vaccine (Veterans who utilize the VA; persons with transportation to get to mass-vaccination clinics) are encouraged to schedule appointments at those sites as soon as possible so they can get an early appointment.

¹ There is a difference between the Commonwealth's reported numbers and what the Watertown Board of Health can confirm through the Massachusetts Virtual Epidemiologic Network (MAVEN).

Because the clinic is limited, attendees will be required to provide proof of Watertown residency and are advised to wear loose clothing that allows for easy access to the upper arm for administration of the vaccination.

If you have insurance, please bring your insurance card with you.

Attendees will be required to be observed for 15 minutes after vaccination, and if you have had any allergic responses in the past. The observation period is 30 minutes. Please plan accordingly.

Please note, at this time, the vaccine supply is very limited, and we will be hosting more clinics as additional vaccines are allotted to us.

Finally, if you have received an appointment for this clinic and you were able to get your vaccine elsewhere, please cancel your appointment for this clinic as it will allow us to vaccinate others. Thank you.

The sites are located in several nearby communities (Framingham, Marlborough, Chelsea, Everett, Revere, Winthrop). Many of these sites are walk-up or drive-through and do not require appointments. Details about each site are provided at <https://www.mass.gov/info-details/stop-the-spread#eligibility->

Contact Your Health Care Provider

If you think you may have COVID-19, call your health care provider and tell them about your symptoms. COVID-19 symptoms may include fever, sore throat, loss of sense of smell, cough, difficulty breathing, body aches, or chills. Your health care provider will help you decide whether testing is appropriate. If your provider thinks you should be tested and cannot do the test on-site, they will make the referral to a testing site near you. Here is a current list of COVID-19 testing sites in Massachusetts:

Use the State's Free Online Telehealth Service

The state is partnering with Doctor on Demand to offer free telehealth visits to Massachusetts residents who want to get a quick assessment of symptoms and/or do not have health insurance. Through this service, you'll be evaluated online and connected to testing if needed. To access this free service, go to: <https://www.mass.gov/how-to/check-your-symptoms-for-covid-19-online>

Call the State's 24-Hour Hotline

If you do not have internet access or do not feel comfortable using websites, you can call 2-1-1, a 24-hour state-supported telephone hotline. Hotline staff can provide guidance on testing.

When can I get the COVID-19 vaccine?

The Baker-Polito Administration and the Department of Public Health developed a vaccine distribution timeline after extensive consultation with the Massachusetts Vaccine Advisory Group. The timeline reflects several priorities: protecting our most vulnerable, maintaining health care system capacity, and addressing inequities in health care access and COVID-19 burden.
